Company Training Drill

NFPA Objectives (JPR's)	Job Levels	Critical Safety Points
<ul style="list-style-type: none"> NFPA 1001, 1021 Multiple 	<ul style="list-style-type: none"> All suppression personnel 	<ul style="list-style-type: none"> Hazard identification, building construction hazards, fire spread paths, entrapment hazards

Each occupancy type presents specific hazards to firefighters. Officers and firefighters need to “profile” each occupancy they respond to knowing specific hazards that are present. Hazards that should be considered are specific types of fuels present, types of construction materials, entrapment hazards, confusing interior arrangements, or other critical factors. If your department or community does not have these types of structures, then consider anywhere you may respond as part of a mutual or automatic aid response. Discuss this as a crew exercise and assign specific addresses to each type or individual occupancy names as part of your drill.

Single Family Dwelling	Multi-Family Dwelling	Strip Mall	Auto Repair Center
1.	1.	1.	1.
2.	2.	2.	2.
3.	3.	3.	3.
Gas Station	Fast Food Restaurant	Large Shopping Mall	Bowling Alley
1.	1.	1.	1.
2.	2.	2.	2.
3.	3.	3.	3.
High Rise Building	Elementary School	Hospital	Vacant Structure
1.	1.	1.	1.
2.	2.	2.	2.
3.	3.	3.	3.
Hotel	Motel	Car Dealership	Big Box Store
1.	1.	1.	1.
2.	2.	2.	2.
3.	3.	3.	3.
Hardware Store	Estate Home	Banquet Hall	Church
1.	1.	1.	1.
2.	2.	2.	2.
3.	3.	3.	3.
Medical Office	Large Office Complexes	High Density Housing	Other Local Type
1.	1.	1.	1.
2.	2.	2.	2.
3.	3.	3.	3.

DRILL TIP: Take a photo of an example of each occupancy type to illustrate your concerns.
